

Air Cooled Steam Condenser

PRODUCT DETAILS:

| | |
|----------------------|---------------------------|
| Tube Material | SS304 Seamless |
| Tube Diameter | As per design requirement |
| Fin Pitch | Customizable |

- **High-Performance Industrial HVAC Heat Exchanger Coils**

- Techflux manufactures SS304 seamless tube cooling coils with Aluminium or Stainless Steel fins, designed for superior heat transfer, corrosion resistance, and long operational life in HVAC and industrial applications.

- Our coils are custom-built for chilled water, brine, glycol, and refrigerant-based systems.

- **Key Features**

- SS304 seamless tubes for leak-proof, high-pressure performance

- Aluminium fins for maximum heat transfer efficiency

- SS fins for corrosive and hygienic environments

- Custom sizes, fin pitch, and tube configurations

- Suitable for heavy-duty industrial use

- **Applications**

- Air Handling Units (AHU)

- Dairy & Food Processing Plants

- Cold Storage Systems

- Pharmaceutical HVAC

- Chemical & Process Industries

- Clean Room Cooling Systems
