

# Crypto Mining Cooler

## PRODUCT DETAILS:

<b>Usage/Application</b>	Refrigeration
<b>Type</b>	Fin Tube Radiator
<b>Condition</b>	New
<b>Types</b>	Immersion
<b>cooling</b>	Oil Cooling, Water Cooling
<b>Graphic Processing Unit</b>	12 GPU

- Designed for hydraulic oil cooling and coolant heat rejection
- Ensures efficient temperature control in industrial systems
- Suitable for heavy-duty and continuous operation
- High heat transfer performance
- Robust and durable construction
- Available in various sizes and customized specifications
