

Dx Cooling Coils

PRODUCT DETAILS:

Tonnage	1TR to 100TR
Refrigerant	R407C, R23, R410A, R404A, R134A
Rows	2 Row/ 8 Row
Coil Material	Copper
Fin Material	Aluminium
Applications	AHU , VRF Indoor, Indoor Units, Enviroment Test Chambers
Country of Origin	Made in India
Capacity	1 TR
Coil Type	DX

- **High-Performance Direct Expansion (DX) Coils**

- We manufacture premium quality DX Cooling Coils engineered for efficient heat transfer, durability, and long service life. Designed by our experienced engineering team, these coils are built using high-grade raw materials to ensure reliable performance in HVAC and industrial cooling applications.
- Our DX coils are easy to install and are precisely designed to allow optimal airflow and ventilation efficiency.

- **Technical Specifications**

- Tube Material: High-quality Copper
- Tube Size: 7 mm to 5/8" OD
- Fin Density: 4 to 15 FPI (Fins Per Inch)
- Custom sizes and configurations available

- **Key Features**

- Long working life
- Durable construction
- High temperature resistance
- Rust-proof body
- Reliable and consistent cooling performance
