

IBT Cooling Coil

PRODUCT DETAILS:

Coating	Color Coated
Country of Origin	Made in India

- Designed for efficient heat transfer from air or process fluid to refrigerant or chilled water
- Widely used in milk cooling systems, ice candy machines, cold rooms, and process cooling units
- **Construction:**
 - Copper or stainless steel tubes
 - Aluminum fins for enhanced heat transfer (bare coil option available)
 - Stainless steel casing with refrigerant distributors
- **Specifications:**
 - Type: DX, CHW, or Brine-based
 - Compatible with R-134a, R-404A, R-410A
 - Available in various capacities and horizontal/vertical designs
